Description
EPOTEC YDFM 261LV is low-medium viscosity modified Bis A / Bis F resin. This resin has greater crystallization resistance than the standard Bis A epoxy resins. The enhancement in the crystallization resistance greatly improves the formulation stability.

Applications
- Adhesives
- Civil engineering
- Protective coatings

Storage
EPOTEC YDFM 261LV resin should be stored away from sources of heat and ignition in original tightly closed container, in dry and warm conditions. Under these conditions, it has a storage life of at least one year from the date of manufacturing.

Handling
Please refer to MSDS for safe handling of EPOTEC YDFM 261LV.
