Description
Epotec YDFM 269 is a blend of diglycidyl ether of Bisphenol-A epoxy resin and diglycidyl ether of Bisphenol-F epoxy resin. This resin is characterized by good wetting behavior and mechanical properties. Also the crystallization resistance of this product is better than the individual Bis-A or Bis-F liquid epoxy resin.

Applications
- Adhesives
- Civil Engineering
- High build coatings
- Protective coatings
- Casting and Tooling

Packing
Epotec YDFM 269 is packed and delivered in 200 lit drums. Other packs are available on request.

Storage
Epotec YDFM 269 resin should be stored in original tightly closed container, in dry and warm conditions. Under these conditions, it has a storage life of at least one year from the date of manufacturing. It is advised to keep the material away from sources of heat, ignition and direct sunlight.

Handling
Please refer to MSDS for safe handling of epotec YDFM 269.

Disclaimer
All recommendations for use of our products whether given by us in writing, verbally or to be implied from the results of tests carried out by us are based on the current state of our knowledge.
