Our World Globally

Aditya Birla Chemicals is big in every segment across chemicals globally with a rich legacy and a diversified portfolio. Started in the 1960s, we have been a forerunner in globalizing chemicals almost 50 years ago with our foray into ASEAN.

Our Key Brands

Our Businesses

Chlor-Alkali

Our Chlor Alkali Business produces caustic soda, chlorine, and specialty derivatives across India and Thailand, serving industries from aluminium and textiles to water treatment and chemicals. Trusted brands like Altura, Aqua Armor, Rensa, and Twist are globally recognized and certified by NSF and CAA.

Phosphates

Our Phosphates division in Thailand is a leading manufacturer of food-grade and technical-grade phosphates. Brands such as Corino, Delice, Gusto, and Pearl serve the processed food industry, while our technical-grade solutions support detergents, coatings, and water treatment applications.

Advanced Materials

Our Advanced Materials business is amongst India's No. 1 and among the top 3 epoxy players in the world. We manufacture epoxy resins at our plants in Germany, Thailand, India & Dalton, USA. Starting in 1992, several products & systems in Epoxy Resins, Curing Agents & Hardeners and Reactive Diluents groups were introduced through the years. A strong, evolving portfolio addresses needs in industries like Construction, Coating, Composites, Electronics, Adhesives and specialised sectors like Wind, Aerospace, Automotive, Marine, Sports, etc. The business is credited with path breaking products and solutions offered through brands like Briozen, CeTePox, Epotec, and Recyclamine.

Sulphites

Our Sulphites business in Thailand is among the leading global producers of sodium sulphite and related derivatives. Marketed under Birlasulf SS, Birlasulf SM, Birlasol 35, Scavo and Vintage, our products serve industries ranging from photography and food to water treatment, mining, and pharmaceuticals.

Our Key Brands

Our Key Markets

AQUACULTURE

We offer comprehensive solutions to help farmers ensure bio-security for their produce. We also provide a range of functional ingredients for seafood processing to retain its optimum texture and taste.

CONSTRUCTION AND COATING

We provide solutions for the Construction Industry that offer unmatched performance in protection, adhesion, flexibility, and excellent core mechanical strength to enhance productivity and safety.

FOOD

We provide crucial and sustainable solutions to the Food Industry, further enabling the international quest towards food security. We help keep your fuel for life safe, healthy, and affordable.

INDUSTRIAL

We serve varied industries with products that are critical in various processes around the world. With our products, we positively impact every industry we play a role in, all to make life larger and better for all of us.

WATER

We provide water solutions to Governments, Communities, and Companies around the world. We help increase potable water availability and enable germ-free hygienic surroundings.

COMPOSITES AND ELECTRICALS

We provide solutions for the Composites & Electricals industry that offer structural superiority, unmatched load-bearing capability, strength & cost optimization, assurance of robust protection, sustained efficiency, lightweight, and long service life.
